 13 short "silver" strips 1mm x 22 mm

Assembling of aerials

Assembling of capsule frame

Assembling of Capsule (use PVA glue!)

- 1 - First glue s2 onto s2a, s4 onto s4a and s6 onto s6a
- 2 - Assembly hemisphere from s1 to s6
- 3 - Unroll junctions on the inside of hemisphere by relatively small hard ball
- 4 - Glue s8 onto s8a and s10 onto s10a
- 5 - Assembly parts from s10 to s7. Unroll junctions
- 6 - Insert capsule frame
- 7 - Assembly all to make the sphere.

It is advisable to build Capsule **without break**.

8 - Glue hatches.

After glue dry up, it should caulk a chinks in joints if need and paint surface by silver spray.

The rest parts of Capsule should be glued after spray dry up.
